

COCOON

## TESTIMONIALS

### COCOON

---

Since we have the COCOON, my husband is much calmer and more relaxed now. I am much more relaxed with his care. I also feel more relaxed and at peace at home. But the very best thing is that I can sleep without nightmares. In the past, I have had horrible nightmares before and after every late-night trip to the bathroom. These have disappeared completely, thank God. My thoughts have become much more positive overall. I hardly have any fears about the future anymore. I hardly notice many things that used to make me feel rather negative. I've noticed I am more relaxed. I believe these improvements mean that negative thoughts and moods are influenced by external factors. That is to say, those negative feelings are now shielded by the device... The falling asleep phase is still currently too long and will hopefully improve. It could also be because several people live here in the apartment building and the COCOON has to neutralize too many frequencies.

### COCOON

---

I would not want to live without the COCOON from CENTROPIX. I noticed relatively quickly (within 1-2 days) that a lot has changed: You feel protected, like in a bubble of well-being, and you have much more energy. After 7 hours of sleep, I feel well-rested and ready to get up (before we had the COCOON that was different). I can think properly again, and my head is clear. In general, my feeling about food has changed: I don't have to stuff food down anymore, I eat much more consciously, and I enjoy eating meals more often.

After about 1 week with the COCOON, I thought I'd lend my device to a friend for a few days so she could test it too. After just one day, I missed my COCOON so much, I was craving the sense of energy and motivation it gave me... I have the COCOON back and will never give it away again.

### COCOON

---

"Not knowing, only feeling," is especially true for our horses. They lie down more often during the day - even when students are at the farm taking courses with us. Fighting between our horses has even decreased. Haflinger horses (we call them "all-you-can-eat horses" for their appetites) seem to have needed less hay overall. Before the COCOON, they were always voracious eaters. We still provide them plenty of high-quality hay quality, but now they seem satisfied with less.

### COCOON

---

We have not had any noticeable, acute problems without the COCOON.

Since we started using the COCOON, my entire family has mentioned feeling better:

You feel well-rested thanks to the "sleep well" and "relax & regeneration" cards.

For me, my sleep schedule has taken on a completely different quality. It feels "like back in the day" when you were on vacation in the mountains—you feel tired at first, then you sleep a lot, and after a

few days a pleasant, refreshing feeling sets in. You feel fit and reinvigorated. You could say you feel "purified" with the COCOON, just like you would in the fresh, unpolluted mountain air 😊 !

My family and I sleep deeply and wake up feeling much more refreshed.

It feels like my stress levels, and that unpleasant feeling of always having to get things done right away are gone. The lack of that feeling has ended up making me feel more productive and efficient at work.

## COCOON

Since last Thursday, Daniel (my partner) and I have had the COCOON at home. I haven't slept so well in a long time and gotten out of bed so easily—until I got the COCOON! I've slept like a baby the past four nights. What a gift!!! And I am thrilled!!! Definitely recommend this product.

- Edith K.

## COCOON

Since we have the COCOON installed in our home, I sleep better and I'm generally more relaxed. Even the workaholics in our house are suddenly able to relax and read a book. If I forget to change the COCOON cards, I become noticeably sleepy (if I don't remove the "sleep well" during the day) or I'll feel restless (if I don't remove the "concentration" card at night).

- Susanne K.

## COCOON

I tested the COCOON in our 7,000 sq. ft. home. I placed the COCOON on the second floor.

On the first day, we used the "E-Smog" Converter Card and the "Hawaii Harmony" Converter Card.

On the 1st floor, we have two tenants, two middle-aged people (a man and a woman). After 2 days they mentioned feeling more relaxed and calm.

A younger woman and her son also live on the ground floor of our home. The woman was more relaxed, she said her dog was sleepy and her young son (9 years old) showed no reaction.

By the way, there is also a pet care center next door. All the dogs became extremely calm, even though we didn't even use the "animal" Converter Card. We tested that Converter Card three days later, and there were no negative reactions there either.

In general, the COCOON had a very positive effect on all of our residents.

The first day we put the COCOON to use, birds flew in and sat on the windowsill of the building for a few hours.

It should mention that no one left the building while we were testing the COCOON.

## COCOON

For over 20 years I have had a general feeling of unease and nothing has really helped me. Since I started using the BUBBLE and the COCOON I feel so much better and I sleep extremely well again.

I sleep all night long and am energized in the morning. In the beginning, I didn't believe that this was possible, but now I have a good quality of life again.

## COCOON

---

The COCOON has done miracles in the restaurant! Guests stay relaxed & friendlier than before. Even in hot temperature, because the other day the air conditioner in the restaurant was down and still the people remained relaxed and friendly. Also, all the mosquitos disappear when the COCOON was on.

## COCOON & BUBBLE

---

I have been suffering from a general feeling of unease for over 20 years and nothing has really helped me. Since I started using the BUBBLE and the COCOON, I feel so much better and I sleep extremely well again. I sleep all night long and am energized in the morning. In the beginning, I didn't believe that this was possible, but now I have a good quality of life again.
